VOLUME 28

ROLLA, MO. SATURDAY, MARCH 28, 1942

NUMBER 45

## Kasten To Head St. Pat's Board Next Year

Last Wednesday night this year's St. Pat's Board elected its new officers for next year. They elected Ray Kasten, president; Ralph Elsea, vice-president; Morris Allen, treasurer; K. E. Meyer, secretary; Mike Catanzaro, finance chairman; Enos Key, dance chairman. According to the statements of several of the electors and electees, it was quite, "One election in which politics didn't play the biggest part."

At this meeting plans were also discussed for the "General MacArthur" dance to be held at MSM on April 11th in co-operation with a movement for similar dances all over the nation on the same date. It is thought at present that a band from Fort Leonard Wood will be here for the occasion. The board has decided not to purchase watch-chain keys this year but watch bands instead.

## M Club Will Have Banquet April 9

The "M" club, at its meeting on Thursday, completed plans for its annual banquet which will be held at the Parish House on the evening of April 9th. This banquet will be held in honor of the new members and the many friends of the MSM Athletic Program.

There was some discussion of the drinking fountain which the "M" Club plans to build. This fountain, which will be built of stone, will replace the temporary fountain between the upper and lower athletic fields.

A plan for the construction of a trophy room was also submitted. It was proposed that the "M" Club would collect pictures of the athletic teams of past years and the trophies they had won, and would place them in a trophy case somewhere in the gymnasium.

In the near future the "M" Club intends to present motion pictures of the Miner football games at one of the local theatres.

## Alcoa Movie Shown Friday By MSM

Friday, March 27, a movie entitled "Unfinished Rainbows" was presented by the Aluminum Company of America, in the Auditorium. It depicted the life of aluminum from its discovery to the present day, and the myriad of uses it performs.

The film was sponsored by the American Society of Metals.

## Sixteen Honor Men Initiated Into Tau Beta Pi

Following their second semester initiation of pledges, held at 5 p. m. last Thursday in the club-room of the Met. Building, the members and guests of Tap Beta Pi held their semi-annual banquet at the Pennant Tavern. Both on and off the campus, Tau Beta Pi, the national engineering honor society is certainly the highest ranking society to which engineers may belong. The thirteen juniors and three seniors who pledged themselves to this coveted honor are: Wib Lawler, G. A. Leland, Kung-Pin Wang, Harvey Barnett, Henry Kurusz, Jack Olson, Frederick Radavich, James Johnson, Vernon Flessa, Ray Kasten, Joe Schmitz, Marion Main, Gene Martin, Francis Krill, Douglas Christensen, and Robert Eck.

At the banquet Mel Ullrich, president of the MSM chapter, presided as toastmaster and introduced the guest speakers, Walter E. Kettelkamp, Professor of History at Washington U. and Assistant Principal at University City High School, and Kenneth Ossmann, Regional Agent for the Federal Securities Administration with offices in Kansas City.

Frederick Radavich, winner of the Tau Beta Pi essay contest, read his paper "The Responsibilities of the American Engineer." Honorable mention in this contest goes to Henry Kurusz and Wib Lawler.

Honorary guests included Major Carl R. Jones, Professors Hanley, Walsh, Ranken, Alsmeyer, Doctors Muilenburg and Mann, and William Smothers, laboratory assistant and graduate members.

## Alpha Psi Omega Plans Spring Play For Last of April

At the meeting of Alpha Psi Omega last Tuesday, plans were discussed for the coming "Spring Production." This production promises to be unique in many respects. It will be the first time a second production has been attempted. It will consist of a two act play and a one act play. Both will be comedies and one, in particular, a "slapstick."

The date for this revolutionary venture has been tentatively set for the latter part of April.

All members, pledges, and anyone else interested in dramatic or the technical aspects of the stage are requested to attend the meetings Tuesday, March 30 and Wednesday, April 1. Castings for the plays will be made on these two nights at 7:30 p. m. in the Auditorium of Parker Hall. Everyone is urged to attend.

Tryouts will be Tuesday and Wednesday.

## AICHe District Convention Will Be Held Here Today

The local chapter of the A. I. Ch. E. made final plans last Wednesday night for the district student chapter convention of the A. I. Ch. E. which is held today on the M. S. M. campus.

It was announced that Dr. Schrenk and Mr. M. Livingood would offer prizes of five dollars and two and one-half dollars respectively for the best technical papers submitted at the convention today. All members of the M. S. M. chapter were requested to register for the convention between 8 a. m. and 9 a. m. this morning in the new chemistry building.

A tour of the campus will follow the registration of the visiting delegates. A luncheon will be held at noon at the Edwin Long and a chemical warfare show will be presented on the upper athletic field at 3 p. m. this afternoon. Mr. B. E. Thomas who is production manager of the St. Louis plant of the Monsanto Chemical Company will speak at the dinner tonight at the Pennant.

F. E. Johnson, Senior Chemical, addressed the meeting on "The Use of Sonic Vibrators in the Freezing and Thawing Study of Concrete." The discussion was concerned with Johnson's work in the research laboratory of the Ash Grove Portland cement plant in Kansas during the past summer.

## Vaughan Elected Chief Editor Of The MINER For The Coming Year

KENNET W. VAUGHAN, junior in civil engineering, was elected Editor-in-Chief of the MINER for the coming year at the meeting of the board Thursday night. He is the second man in the history of the MINER to have held

## Registration For Summer School Today And Monday

### St. Pat's Board To Give MacArthur Day Dance

There will be a dance given on Saturday night, April 11, in honor of General MacArthur's heroic stand in the Philippines.

The admission will be the display of one dollar's worth of Defense Stamps purchased in the drive to support the national war effort.

The dance is to be sponsored by the Blue Key and the St. Pat's Board and other campus organizations with the cooperation of local civic groups.

### Record Club Will Meet Sunday At 7:30

The Record Club will hold its regular meeting in Room 104, Norwood Hall, Sunday, March 29, at 7:30 p. m.

The high spot in the evening's program will be the Symphony in D minor by Cesar Franck, probably the greatest of French composers. Besides this highly original and melodic symphony, the program will include Mendelssohn's Ruy Blas Overture and Beethoven's Egmont Overture. All who are interested are invited.

This week the Missouri School of Mines and Metallurgy announced a schedule of courses for the summer of 1942, and requested that those students who desire to attend this session should pre-register with their department heads today or Monday.

According to the Registrar, Mr. Noel Hubbard, it is particularly desirable that the present Juniors and irregular students attend the summer session. By going to school this summer it will be possible for the present Juniors to graduate next January. Those present Juniors who don't attend this summer, he said, will probably have trouble in arranging satisfactory schedules next fall.

The present Sophomores and Freshmen who are not carrying regular schedules should attend the summer session so that they may establish regular schedules and at the beginning of the junior year follow a program as outlined for the present Juniors.

Although no definite 1942 summer program has been arranged for the present Sophomores it is possible for them to obtain a summer schedule of courses. Under the present plan these Sophomores will be expected to attend a summer session during 1943 whereby they can graduate in January 1944.

The present Freshmen who wish to do so may follow an outlined program whereby they can remain in school continuously until they graduate in August 1944.

Those students who do not expect to attend summer school will pre-register at a later date.

## Kent Comann New Blue Key Head

The Blue Key officers for the coming year were elected at a regular meeting of Blue Key last Tuesday evening. Those elected were Kent Comann, president; V. P. Coolidge, vice-president; Ray Kasten, secretary-treasurer; Bob Eck, corresponding Secretary and Henry Kurusz, sergeant at arms.

Plans were discussed for a MacArthur day dance to be held on April 11 in conjunction with the St. Pat's board, Student Council and the Junior Chamber of Commerce.

### ALUMNI

Donald P. Pray, ex '19, is doing general contracting work with headquarters at Monett, Missouri. Donald has the contract for the construction of the new sewage disposal plant in Rolla.

## Dean Wilson Gives A Word of Advice

Industry this year is seeking the services of trained engineers more than ever before in history. Representatives of numerous corporations have visited the campus of Missouri School of Mines and Metallurgy for the purpose of interviewing graduating seniors. These interviews have resulted in definite offers made to our seniors for employment upon graduation.

We are proud of our seniors and are confident that the services which they enter will reflect credit upon themselves and likewise credit upon this institution, their Alma Mater. When a man graduates from Missouri School of Mines, we know that he has completed the course of education whose standards are as high as any educational institution in the world.

Because the opportunities have been so numerous this year, and because everyone is so busy completing the final semester of this academic year thoughtlessness is liable to cause us to neglect certain courtesies demanded by business etiquette. I therefore urge and trust that all offers be acknowledged promptly, and that when an offer is once accepted we abide by our decision regardless of more tempting offers. If a company goes to the trouble and expense of sending a representative here and then later makes a definite offer, the person receiving that offer should value it highly. When so many opportunities are available we are tempted to treat them lightly.

Missouri School of Mines and Metallurgy has earned through its graduates an enviable reputation in the professional world. Industrial companies seem to like to send representatives here, and they seem anxious to obtain the services of our graduates. We wish to uphold this reputation. In future years, when the demand for graduating engineers may not be so great, we want Missouri Mines graduates to be the first choice. A little thoughtfulness now, or an overestimation of our own personal importance, may cause an unfavorable reaction in the minds of employers and may

## Factory To Make Plastic Planes Is Being Built

March 24th, Curtis-Wright announced plans to build a factory. This factory, whose location is a military secret, will produce plastic airplanes to be used as troop transports. This will be the first factory of its kind in the United States and may start a new era in plane construction.

Roy Ferris, in his speech to the A. S. M. E. Wednesday night, brought to light these facts and many others that are compelling research in the field of aeronautics. Mr. Ferris stated that in 1930, metal planes started replacing wooden ones covered with cloth. He also said that it may be possible for plastics to supplant metallic construction. One of the greatest advantages of plastics over metals, now, is the fact that plastics may be made into planes more rapidly.

After the speech, which Mr. Ferris will give to the A. S. M. E. convention April 17, cigars were passed, and the movie "Curtis-Wright Answers the Call for Production" was shown. The show was originally 800 ft., but the government censored some parts because the movie showed production lines of the Curtis P-40.

turn them away from our institution. Our responsibility, therefore, is not only to ourselves and to the present time, but also to those who will graduate in future years. For the sake of continuing our merited reputation, I bespeak your wholehearted cooperation.

(Signed) Curtis L. Wilson

## As a MINER Sees it

And so into oblivion to join all the other great events of history rolls St. Pats, '42. Dances may come and dances may go but never will MSM and her Miners experience a more perfect week-end than for the record. Top honors of the year to Art Rose and his St. Pats board boys for their efforts and results.

To John Mazzoni (St. Pat to the uninformed) goes the prize-winning, hand-painted, gold-edged lollipop for losing his temper during the knighting ceremony Friday afternoon. Agreed, John those erstwhile comedians were out of place in throwing you off the stage in the midst of proceedings, but that could have been converted into another hilarious situation instead of the droll one it was.

Speaking of the knighting ceremony, that bicycle Cook and Glover rode so gracefully across the stage and through the audience was acquired from our local and dashing Western Onion boy for the trivial sum of two-bits—more than he had made all week on tips. Busch, Rasmussen and Stowell were very much in evidence all afternoon with their rubber bands and paper wads. I know—laught one in the poster while reeling all over the steps awaiting my shingle. An honorable mention nod to Burberry and Vaughn for their stealing of the blarney stone and to Mushovic for his Lil' Abner act in returning it to its rightful place before the altar. Dean "Dapper Dan" Wilson (quoting Mazzoni there) completely sold himself to the Miners by the jovial manner in which he took everything in stride and refrained from acting the part of the tyrant.

"Scat" Davis and his boys turned out to be a bunch of regular eggs after all. As well as I can learn, "Scat" was in every room at the Penant at least once

after the formal. A few of our local wolves might profit from lessons by him. Except for that vocal of "I Don't Want to Walk Without You" his music was decidedly above average too.

Scenes at the hotel during the course of the week-end: Lyons and Kurtz repeatedly diving into a bed from an ironing board—Kurtz does a beautiful swan; Stevens offering a drink to a minister in the lobby and being turned down; a conga line, led by Veale, snaking all over the second floor a Sunday School class organized in the lobby and using Bibles collected from 17 rooms; Guilfooy being carried from room to room like a corpse; lipstick signatures on Kurtz's shirt front; Kehr drinking spring water from a Glenmore jug; and so on for pages and pages.

Our boy Joe Schmitz was upholding his reputation as a wolf down at the Tavern Saturday night they tell me. The other party concerned was a married girl, but does that stop our Joe? No, indeed; he sent the husband away to find another girl.

Brackbill had the scare of his young and innocent life Monday morning when called into the office at 8:00. It turned out that Mr. Hubbard just wanted to make sure he was sober enough for his 8:00 o'clock.

I haven't fully recovered from the week-end myself at the time of this writing and may be leaving out a worthy item, but don't worry, I'm not through with the boys yet.

## Track, Tennis, Golf Schedules For This Year

## Coaches Bullman And Gill Have Built Outstanding Athletic Program at MSM

One of the more important functioning departments in any school, is the Athletic Department. It is generally their duty to provide relaxation and physical activity for the undergraduate body, at the same time, keeping their program in harmony with the school program itself.

MSM is fortunate to have a good athletic department, run by two very versatile and capable men, Gale Bullman, and Percy Gill. Their job has not been an easy one, for MSM is primarily a school of Engineering, and the students attending here do not always furnish the best athletic material. However, the Athletic department of MSM has been doing a splendid job with the material and facilities at their disposal.

In the few years that the coaches have been here, both coaches have produced outstanding teams in football, basketball, golf, and tennis. They have also carried on a large intramural program which stands up to any other program of a school of this size and calibre.

The greatest drawback to the Athletic Department which prevents them from making an even greater success with its work, is time. Since the greater majority of students at MSM must carry 20 hours a semester, their time for outside activity is seriously restricted. To produce championship teams takes time, with plenty of hard work and practice, and if the time is restricted, the teams must suffer somewhat. Many former high school athletes find on their arrival at MSM, that their time is limited, and if they do compete in the various activities their grade average suffers. This, so to say, scares them out of competition, and their useful talents go for naught. Time is the major problem today and will probably remain the big factor in the MSM athletic program of the future.

The Intramural program this year has been carried on with increased vigor, and from all outlooks, this year will be a banner year. The number of participants in the various Intramural sports have equalled and surpassed those of previous years.

Although some men have competed in several sports, the totals of those taking an active

## Intramural Sports

By Charlie Mitchell

The 1942 Intramural Track Meet will get under way Wednesday, April 1, and will last till Saturday, April 4. A total of nine events will make up the program, but due to the large number expected to enter this year, the meet has been extended over a longer period of time in order that the preliminaries of the events might be held, to select the finalists.

It is important that all men who plan to enter the Intramural track meet this year have his entry filed at the Athletic department by 6 o'clock Tuesday, March 21. The entry must contain the student's name, club affiliation, and the event or events in which he wishes to compete.

If a student enters an event and does not start or compete in the event, 3 points will be taken from his organization's total point standing, at the end of the meet.

Each organization may enter one man in each event. The events in which any one individual may compete are restricted to three events, and a relay.

Varsity Lettermen in Track are not allowed to compete in the Intramural Track Meet. Varsity track men who have not made a letter are, however, allowed to compete. The track lettermen are requested to be at the Intramural

part in the various athletic activities in the past year are as follows: Varsity football 67; Intramural Football 205; Intramural Cross Country 37; Intramural Table Tennis 120; Intramural Basketball 162; Varsity Basketball 35; Varsity Swimming 15; Intramural Boxing and Wrestling 115; Varsity Track 35; Intramural Track 140; Intramural Tennis 32; Varsity Tennis 15; Intramural Horseshoes 32; Intramural Handball 52; Intramural Golf 55; Varsity Golf 9; and Intramural Softball 145.

meet and help with the officiating.

The events will be run off in the following order on the following days:

Wednesday—50 yard dash—5 p. m.; Finals 5:45 p. m.

Shot Put (each man gets 3 puts)—5 p. m.

Thursday, April 2—100 yard dash—5 p. m.

High Jump (the bar will start at 4 ft. 6 in.)—5 p. m.

Friday, April 3—120 yard low hurdles—4:30 p. m.

Broad Jump—(4 jumps per man)—4:30 p. m.

Saturday, April 4—440 yard relay—2 p. m.

880 yard run—3 p. m.

Three leg race—3:20 p. m.

Points will be awarded as follows for the meet: first place 7 points; second 5 points; third 4 points; fourth 3 points; fifth place 2 points; and sixth place 1 point.

The time that each event will start has been posted on the bulletin board of Jackling Gymnasium, and it is important that the contestants read the time at which their events start.

## APO Officers Nominated; Will Be Elected Apr. 8

The Alpha Phi Omega, service Fraternity held a nomination of officers at its meeting last Wednesday. The election of officers will take place on April 8th.

The initiation of pledges will be held during the following week. A banquet will be held in honor of the new members after the initiation.

The local chapter plans to contact the St. Louis unit of the Red Cross in regard to the collection of blood for a blood bank which the Red Cross is promoting.

The work of reorganization of local Boy Scout troops is proceeding satisfactorily.

### Joe Miner Sees Big St. Pat's Week-End Through Blurry Eyes

St. Pats is over, so let's get a bird's eye view of Joe Miner and his problems involved with this gala occasion.

It is February 1, and Joe has decided that it is time to get on the ball, and turn that mythical date he has been thinking about since last St. Pat's into a lovely bundle of flesh and blood.

Now Joe's problem really begins, he can't decide whether to ask the blond cutie at Stephens, the steady in St. Louis, or the local girl friend. He is sure to get in dutch, no matter what course he follows.

Joe finally decides to ask the one in St. Louis. He writes her a nice letter and awaits her reply. One week passes, two weeks pass, and Joe has written a second letter. Finally the answer comes, "So sorry, but mother's appendicitis are acting up again, and I can't leave."

It is then that Joe writes the little Stephens friend. Three weeks pass and Joe is getting worried, because in the meantime he has made an agreement with his friends that the one who fails to get a date for St. Pat's receives thirty swats. He telegraphs for an immediate reply. Sorry, steady boy friend's fraternity dance is that week-end.

It is now that Joe really begins to worry. He has only two weeks left. Will his local girl still go with him if he asks her? That is the question. Well, Joe finally gets a date. It is then that his mind turns to thoughts of the celebration, and he celebrates.

Joe then takes it easy and forgets about St. Pat's except for a few weak moments, during one of which he purchases a case of brew.

Now the Thursday night before St. Pat's has arrived, and we see Joe whooping it up with the rest of the boys. However, it is Friday morning that Joe realizes he has been celebrating, as he staggers from one class to the next. Joe finally takes the only remedy, a couple more snifters.

Joe was to take his date to the knighting ceremony, but about this time, something hit him. However, a good drenching

in cold water soon brought him around, and he was able, with a little help, to pick up his date. Incidentally, Joe was a good boy, and all he had to put up with was kissing the blarney stone, which it turned out was no easy task, but finally accomplished.

Friday night finally rolls around, and we see Joe and his date at the masque dance. Joe is in his red flannels, with a very bad case of gapidus, and his date is sporting a pair of shorts, the costume choice of all the girls. How Joe managed to arrive at said ball is a long, long story, but he made it.

Intermission and everyone is out at the Pennant. We spy Joe's date, but where is Joe? After careful search is made, all agree that Joe must be out after a little fresh air.

Well, Joe made it home after the dance, which is one of life's mysteries that will probably never be explained.

Saturday noon, and Joe steps out of bed after a good four hours' snore, bang-crash, groan, Joe's first step landed him on the floor. Somebody's shoe must have been in the road.

The Sigma Nu tea dance rolls around, but this delicious drink did not seem to satisfy the thundering herd in Joe's head, so back to the old reliable.

Time for the formal dance has arrived and we see Joe and his three roommates in what looks like a hopeless struggle with a tux, but in the end the overwhelming odds finally won.

Joe's misfortune of this night are numerous, and varied, but our conscience forces us to skip Joe until Sunday. Joe is able to crawl out of bed at 6 p. m. but it is plain to all that his attendance in class next week will be a matter of the body only.

### Off The Campus

With another St. Pat's come and gone, Lambda Chi can say that this one has been the best ever. The entire week-end was well planned, with something to do every minute. Specialties of the house weekend were a buffet supper on Friday evening, cocktail parties both evenings at 5 p. m., and a formal banquet Saturday evening at eight P. M.

Special guests at the banquet were Johnny "Scat" Davis, Gen. U. S. Grant III, and Lieut. and Mrs. LeCompt Joslin.

Fifteen fellows from the house attended St. Pat's with dates. Their dates were the Misses Bettelée Boggs and Betty Brewster, of Rolla; Deanie Edmundson, the House Maid of Honor from Harrison, Arkansas; Lou Balch, of Sedalia; Mary Virginia Moore, of LeCombe, Mississippi; Mary Jane Scott, from the Fontbonne College, St. Louis; Hazel Laderly, of Louisiana, Mo.; Lydia Laubner, of Bellville, Illinois; Peggy Pray, of Springfield; Mary Spellman, also of Springfield; Marian Shriver, of St. Louis; and Mary McCrae, Midge Parmalee, Marporie Johnson, and Joan Bower, all of Stevens College at Columbia.

We, of Lambda Chi, express our deepest thanks to our chaperones, who so kindly aided in making this a bigger and better St. Pat's at the Lambda Chi house. They were Mrs. R. Wheat, of Springfield; and Mr. and Mrs. DeVere Joslin, Mr. and Mrs. F. B. Powell, and Mr. and Mrs. E. D. Williams, all of Rolla.
